DETAILED ACTION

Drawings

1. The drawings are objected to because all rectangular boxes in the drawings should be labeled. See 37 CFR 1.83. Corrected drawing sheets in compliance with 37 CFR 1.121(d) are required in reply to the Office action to avoid abandonment of the application. Any amended replacement drawing sheet should include all of the figures appearing on the immediate prior version of the sheet, even if only one figure is being amended. The figure or figure number of an amended drawing should not be labeled as "amended." If a drawing figure is to be canceled, the appropriate figure must be removed from the replacement sheet, and where necessary, the remaining figures must be renumbered and appropriate changes made to the brief description of the several views of the drawings for consistency. Additional replacement sheets may be necessary to show the renumbering of the remaining figures. Each drawing sheet submitted after the filing date of an application must be labeled in the top margin as either "Replacement Sheet" or "New Sheet" pursuant to 37 CFR 1.121(d). If the changes are not accepted by the examiner, the applicant will be notified and informed of any required corrective action in the next Office action. The objection to the drawings will not be held in abeyance.

Specification

2. The abstract of the disclosure is objected to because the abstract should not contain reference numerals. Correction is required. See MPEP § 608.01(b).

Art Unit: 2859

3. The disclosure is objected to because of the following informalities: The specification and claims recite "NRM" where what is clearly intended is "NMR". Applicant should consider changing or removing the term "appropriate" in the claims as such is narrative.

Appropriate correction is required.

Allowable Subject Matter

4. Claims 1-26 are allowed.

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Steinmeyer et al., Kotsubo et al., Nerreter and Marek all disclose NMR coils that are cooled. Note the abstract of each disclosure.

6. This application is in condition for allowance except for the following formal matters:

Correction of the drawings, abstract, specification and claims.

Prosecution on the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

A shortened statutory period for reply to this action is set to expire **TWO MONTHS** from the mailing date of this letter.
